Professional Summary

Passionate and experienced web developer with 2 years of expertise in building scalable and responsive web applications. Skilled in ReactJS, JavaScript (ES6+), Node.js, and Firebase. Adept at integrating RESTful APIs, optimizing performance, and ensuring application reliability through unit and automation testing. Experienced in developing secure cloud functions and automation testing using Selenium and Mocha. Currently **available for immediate joining** in a Web Developer role, ready to contribute effectively from day one.

Technical Skills

- **Languages & Frameworks:** JavaScript (ES6+), TypeScript, ReactJS, Node.js
 - **Testing Tools:** Mocha, Selenium, Appium
 - **Databases:** Firebase, Firestore
 - **Cloud Platforms:** Google Cloud Platform (GCP), Cloud Functions
 - **Version Control:** Git
 - **Other:** UI/UX Design, RESTful APIs, Automation Testing
-

Professional Experience

Vendekin Technology Pvt Ltd, Pune

Web Developer | *December 2022 – September 2024*

- Developed and maintained the **VNetra Admin Panel (Web App)**, enhancing features, user experience, and performance.
- Integrated third-party APIs (e.g., MSG91 for SMS services) to enable real-time notifications and streamlined communication.
- Built scalable backend solutions using **Google Cloud Functions** for efficient and serverless request processing.

- Designed and implemented **automation tests** using **Selenium (Java)** for frontend and **Mocha (JavaScript)** for backend, achieving 99%+ code coverage.
 - Handled integration and onboarding of vending machines into the platform, ensuring **real-time inventory management**.
 - Managed the **vending machine planogram** for product stocking, refilling, and quantity management, improving UI/UX for vending machine operators.
 - Identified and resolved bugs across **web and Android applications**, contributing to system reliability and user satisfaction.
-

Education

B.Tech in Computer Science & Engineering

Hi-Tech Institute of Technology, Chhatrapati Sambhaji Nagar (Aurangabad), Maharashtra

Graduated Year: [July 2022]

Projects & Contributions

- **VNetra Admin Panel**
Led development and maintenance, integrated APIs, enhanced performance, and optimized the admin dashboard for vending operators.
 - **Automation Testing Suite**
Built comprehensive test cases ensuring robust functionality across browsers using **Selenium** and **Mocha**, achieving high code coverage.
-

Recent Technologies Worked With

ReactJS • JavaScript (ES6+) • TypeScript • Node.js • Firebase • Firestore • Google Cloud Platform • Cloud Functions • Selenium • Mocha • Appium
